5	Managing the Technical Areas:	☐	☒	☐	☐						
6	Positioning / Movement / Signals:	☐	☒	☐	☐						

Positive Areas of Performance:

1. You reacted quickly to a large number of Offside calls by your team, and got all of them correct. Fine teamwork and communication.

2. You ran well when necessary for the first three fourths of the game.

3. Your foul recognition was good for this level.

Areas For Improvement:

1. In the last part of the game, you stopped running and did not keep up with the play. You should stay closer to the ball/action, and not get caught 30 yards away

2. Appearance is very important in selling your calls. Sharp signals are important. Try practicing in front of a mirror to see how you look. Try Stop/Attention/Sig

3. You should move out of middle of field. Go deeper into the penalty area (especially on corner kicks) and the corners.

Additional Comments / Suggestions:

1. With more experience, you will make a fine ref. Keep working hard. Pls call () /email me if I can be of any help.

2.

3.
